

### LOTE

What Chinese words do we use to name people in our family?

### HASS

What is a family?  
How do we remember events in our past? What do we do to celebrate?

### Physical Education

How can we control the parts of our body when moving and playing?

### Science

What are different weather types? How does the weather impact on people and places?

### English

How do we put sounds together to read and write? How can we write lists to show our writing skills?

## My Family

### Health

How do recognise emotions in ourselves and others?

### Maths

How can we recognise, count and order numbers to 10 and beyond? How do we represent and continue patterns? What is the order of the days of the week? What special events occur on certain days?

### Arts- Visual Arts

How can we create and respond to visual artworks?

### Music

How can I use my singing voice, rhythm, movement and instruments to perform familiar songs?

### LOTE

What Chinese words do we use to introduce ourselves?

### HASS

How have families changed through time?

### Physical Education

How can we control the parts of our body when moving and playing?

### Science

How can we change materials?

### English

How do I retell events from stories?

## Family-Then and Now

### Health

How do we change as we get older?

### Maths

What strategies can we use to add or subtract? How do we skip count in 2s, 5s, and 10s? How do we partition 2 digit numbers into tens and ones? What are the names and properties of 2D and 3D shapes?

### Arts- Dance

How can we move our body to show emotions and characters?

### Music

How can I use my singing voice, rhythm, movement and instruments to perform familiar songs?

### LOTE

What Chinese words do we use to express our likes and dislikes?

### HASS

How has technology changed our lives?

### English

What language and text structures do we need when we write a narrative based on Fairy Tales?

### Physical Education

How can we control the parts of our body when moving and playing? Why do we follow the rules when playing games? What can we do to help us win games?

## Fairy Tales

### Science

How and why do we combine materials when creating mixtures?

### Maths

How can we solve addition and subtraction problems using a range of strategies? How can we read, order and represent 3 digit numbers? What are the order of the months and seasons? How do we partition 3 digit numbers into place value parts?

### Technology

How can we solve problems using digital software and hardware?

### Music

How can I use my singing voice, rhythm, movement and instruments to perform familiar songs?

### LOTE

What Chinese words do we use to describe book characters?

### HASS

Who makes the rules in a community and why? How does a democracy work?

### English

What language and text structures do we need when we write a narrative? How do authors construct a narrative?

### Physical Education

How can we control the parts of our body when moving and playing? How can I show good sportsmanship? What tactics can I use?

The world of  
Roald Dahl

### Science

What are the states of materials and how can we change them?

### Maths

How can we model, order and represent 4 digit numbers? How do we solve addition, subtraction, division and multiplication facts? How can we describe the outcomes of chance experiments?

### Technology

How can we use peripheral devices to create virtual tours?

### Music

How can I enhance my singing voice? What are the instruments in the string family?

### LOTE

What Chinese words do we use to describe book characters?

### HASS

What is the difference between a rule and law? How does a democracy work? What is the role and responsibility of local government?

### English

What language and text structures do we need when we write a narrative? How do authors construct a narrative?

### Physical Education

How can we control the parts of our body when moving and playing? How can I show good sportsmanship? What tactics can I use?

## Charlotte's Web

### Health

What influences our identity? How do our experiences impact on how we interact?

### Maths

How can we model, order and represent 4 and 5 digit numbers? How do we solve addition, subtraction, division and multiplication facts? What are equivalent fractions? How can we represent fractions on a number line? Can we use scaled instruments to measure different attributes?

### Science

What are the states of materials and how can we change them? How do contact and non-contact forces impact on the movement of objects?

### Technology

How can we use peripheral devices to create virtual tours?

### Music

How can I enhance my singing voice? What are the instruments in the string family?

### LOTE

What Chinese words do we use to introduce ourselves and talk about our family?

### HASS

What is the role and responsibility of local government? What is the difference between a rule and law? What groups exist within a community?

### Physical Education

How can we control the parts of our body when moving and playing? How can I show good sportsmanship? What tactics can I use?

### Science

What are the properties of natural and processed materials and how does this influence their use?

### English

What language and text structures do we need when we write a narrative? How do authors construct a narrative?

## Rowan of Rin

### Maths

How can we represent 5 digit numbers? What are equivalent fractions? How can we represent fractions on a number line? How can we use multiplication and division to solve problems?  
Can we use scaled instruments to measure different attributes?

### Music

How can I enhance my singing voice? What are the instruments in the string family?

### Health

What influences our identity? How do our experiences impact on how we interact?

### Technology

How can we use coding and algorithms to direct electronic devices?

### LOTE

How can we organise an event using spoken and written Chinese language?

### HASS

What is the role and responsibility of local government? What is the difference between a rule and law? How is Australia based on the Westminster system?

### Physical Education

How can we control the parts of our body when moving and playing? How can I show good sportsmanship? What tactics can I use?

### English

What language and text structures do we need when we write a narrative? How do authors construct a narrative?

### Science

What are the properties of natural and processed materials and how does this influence their use?  
What can we observe about how solids, liquids and gases behave?

## Deltora Quest

### Maths

What strategies can we use to solve problems? How do we add, subtract, represent, compare and represent fractions? How do we identify and use factors and multiples? Can we continue patterns with fractions?

### Health

What influences our identity? How do our experiences impact on how we interact? How do people contribute to their community?

### Technology

How can we use coding and algorithms to direct electronic devices?

### Music

How do we record music to compose? How can we compare music? How can we improve our performance skills?

### LOTE

How can we organise an event using spoken and written Chinese language?

### HASS

How are environmental and human characteristics related?

### Physical Education

How can we control the parts of our body when moving and playing? How can I show good sportsmanship? What tactics can I use?

### Science

What is included in our solar system?  
What are the characteristics of the planets?

### English

What language and text structures do we need when we write a narrative? How do authors construct a narrative?

## Percy Jackson

### Maths

What strategies can we use to solve problems? How do we add, subtract and compare fractions? How do we identify and use factors of multiples? How do grid references and mapping conventions help us to find and describe locations?

### Health

What decisions can we make to prevent future health issues?

### Technology

How can we use coding and algorithms to direct electronic devices and collaborate to share ideas?

### Music

How do we record music to compose? How can we compare music? How can we improve our performance skills?

### LOTE

How can we organise an event using spoken and written Chinese language?

### HASS

How have people influenced the environment of Europe and North America? Where are these places located?

### Physical Education

How can we control the parts of our body when moving and playing? How can I show good sportsmanship? What tactics can I use?

### Science

What is included in our solar system? What are the characteristics of the planets?

### English

What language and text structures do we need when we write a narrative? How do authors construct a narrative?

## A Series of Unfortunate Events

### Maths

What strategies can we use to solve problems? How can we compare, add and subtract decimals and fractions? What are the correct units of measurement and how can we use them to measure and calculate perimeter, area and volume?

### Health

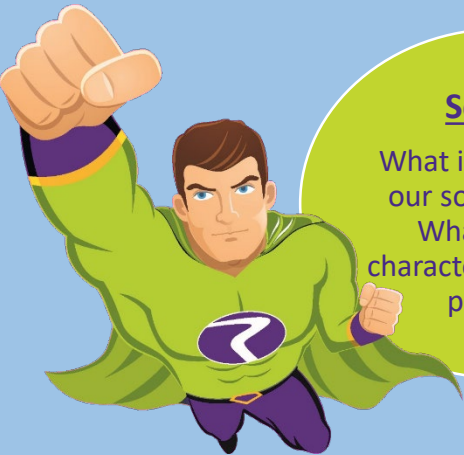

How do our emotions and experiences shape our decisions and how we interact with others?

### Technology

How can we use coding and algorithms to direct electronic devices?

### Music

How do we record music to compose? How can we compare music? How can we improve our performance skills?

### LOTE

What are Chinese inventions? How do we report in Chinese to an audience?

### HASS

How do differences in the economic, demographic and social characteristics of countries across the world impact on people?

### Physical Education

How can we control the parts of our body when moving and playing? How can I show good sportsmanship? What tactics can I use?

### Science

How does the environment affect the survival of living things?

### English

What language and text structures do we need when we write a narrative? How do authors construct a narrative?

Wonder

### Maths

How do we use units of measurement to solve problems? How can we compare, add and subtract decimals and fractions? What strategies can we use when adding, subtracting, multiplying and dividing whole numbers?

### Health

How do our emotions and experiences shape our decisions and how we interact with others?

### Technology

How can we use coding and algorithms to direct electronic devices?

### Music

How do we record music to compose? How can we compare music? How can we improve our performance skills?
